MEDICAL

Statements of Witnesses - Dr. Richard Brooks DULANY
Deposition - March 25, 1964, 6H113-5

He was present when treatment on the Governor was started and then went into the room where the President was being cared for.

He did not observe any of the President's wounds, and I am beginning to get the idea that this record is being cluttered up only for the purpose of getting these doctors on record under oath as having said that they saw nothing. There would seem to be absolute no other reason for having called him.
